# Freeze-dried chews

## Freeze-dried - like fresh, only better!

Our delicacies are frozen at sub-zero temperatures and then gently dried in a vacuum - without any heat. This is called sublimation - sounds complicated, but it's ingenious: nutrients, vitamins and flavour are fully preserved.

Whether salmon with healthy fats or lean meat - everything comes from Germany and the EU. The snacks taste like fresh, are easy to digest and absorb water again in a flash if required. Ideal as a dry treat or briefly soaked. Packed in tins or pouches - ready for real gourmets on four paws!

## **Chew sticks / natural toys**

- ✓ 100% sustainable! Use of waste wood
- ✓ Size (length and thickness) may vary
- ✓ Which size is suitable for which dog? This depends on the biting force and size of the dog. Ideally, the chew should not be able to be taken between the back molars. The following table is a guide. If in doubt, choose a size larger. If the dog bites through the chew stick, take it away immediately, otherwise it could injure itself. Pass this information on to your customers.
